Job Ref. No.	JLIL179
Position:	**Mobile Developer**

Jubilee Insurance was established in August 1937, as the first locally incorporated Insurance Company based in Mombasa. Jubilee Insurance has spread its sphere of influence throughout the region to become the largest Composite insurer in East Africa, handling Life, Pensions, General and Medical Insurance. Today, Jubilee is the number one insurer in East Africa with over 450,000 clients. Jubilee Insurance has a network of offices in Kenya, Uganda, Tanzania, Burundi and Mauritius. It is the only ISO certified insurance group listed on the three East Africa stock exchanges – The Nairobi Securities Exchange (NSE), Dar es Salaam Stock Exchange and Uganda Securities Exchange. Its regional offices are highly rated on leadership, quality and risk management and have been awarded an AA- in Kenya and Uganda, and an A+ in Tanzania. We currently have an exciting career opportunity for **Mobile Developer**. The position holder will report to the **Senior Manager - DevOps** and will be based at Head Office in Nairobi.

Role Purpose
The role holder is responsible for designing, developing, and maintaining cutting-edge mobile applications. The role involves collaborating with cross-functional teams to create, enhance, and optimize mobile solutions that align with organizational goals and industry best practices. The Mobile Developer will contribute to the innovation and continuous improvement of mobile applications, ensuring a seamless user experience and staying abreast of emerging technologies.

Main Responsibilities
Operational:
- Design and implement mobile applications for iOS and Android platforms.
- Collaborate with UX/UI designers, product managers, and other stakeholders to translate requirements into functional and visually appealing mobile applications.
- Troubleshoot and debug mobile applications to enhance performance and resolve issues.
- Stay updated on mobile development trends, tools, and technologies to recommend and implement improvements.
- Conduct thorough testing of mobile applications to ensure high quality and reliability.

Corporate Governance (Regulatory and Compliance):
- Adhere to coding standards, security guidelines, and regulatory requirements in the development process.
- Collaborate with the security and compliance teams to implement and maintain necessary measures for data protection and privacy.

Culture:
- Foster a culture of collaboration, innovation, and continuous learning within the mobile development team.
- Mentor and guide junior developers to enhance their skills and contribute to the overall success of the team.
- Actively participate in knowledge-sharing sessions and contribute to the overall improvement of development processes.

Key Deliverables
- Timely and successful delivery of high-quality mobile applications.
- Adherence to coding standards and compliance requirements.
- Continuous improvement of mobile application performance and user experience.
- Collaborate with UX/UI designers, product managers, QA engineers, and other development teams.
- Regularly communicate progress and challenges to project managers and stakeholders.

Key Competencies
- Strong collaboration and communication skills.
- Ability to work in a fast-paced, dynamic environment.
- Innovative thinking and a proactive approach to problem-solving.
- Detail-oriented with a commitment to delivering high-quality solutions.

Qualifications
- Bachelor's degree in Computer Science, Software Engineering, or a related field.
- Proven experience in mobile application development, with a track record of successful projects.
- Familiarity with mobile development frameworks and libraries.
- Excellent problem-solving and debugging skills.
- Strong understanding of mobile UI/UX principles
- Strong problem-solving skills and attention to detail.

Relevant Experience
- 3+ years of practical experience in mobile development.
- Proficiency in mobile development languages such as Swift (iOS) and Kotlin/Java (Android).
- Familiarity with mobile development frameworks and libraries.
- Excellent problem-solving and debugging skills.
- Familiarity with Agile development methodologies.
